

MedRight Scheduling is an exciting breakthrough in computer technology specifically designed to give hospital and independent clinical laboratories a strong competitive advantage in the Nursing Home and Home Care marketplaces!

Success in these growing, yet demanding, market segments requires uncompromising technical quality and personal service. At the same time, low reimbursement rates mean that you must tightly control costs.

Automated scheduling of patient tests is an excellent way to distinguish yourself from the competition. It provides clear benefits to your nursing home and home care clients. You will

- ✓ Eliminate scheduling errors
- ✓ Reduce patient discomfort
- ✓ Simplify test ordering procedures
- ✓ Relieve professional staff of tedious work

- ✓ Increase patient contact time without increasing staff
- ✓ Strengthen your client's CQI/QA programs effortlessly

MedRight 4.0+

The right choice in patient scheduling systems!

As the provider of laboratory services, you also benefit from automated patient scheduling. *MedRight Scheduling* allows you to

- ✓ Comply with Medicare
- ✓ Operate more efficiently
- ✓ Minimize nursing home and home care client loss
- ✓ Gain new business
- ✓ Establish market leadership
- ✓ Invest in your future

Easy-to-use and flexible, *MedRight Scheduling* allows you to tailor your services to each client's specific needs. Used properly, the system allows you to build successful, long-term, and mutually beneficial relationships with your clients!

The most affordable scheduling system on the market today, *MedRight Scheduling* is easily customized to your specific needs! Barcoded LIS scripts (eliminate rekeying), Barcoded specimen labels, Electronic patient diaries, Patient pictures, and Paper-saving draw lists are just a few of the possibilities. Even distribute patient entry & maintenance to your client, if desired!

MedRight Scheduling operates on Windows-based PCs and is attractively priced to stretch your budget dollars further.

Software Inventors, located in the pastoral hills of Western New York, has been providing innovative, high-quality computer systems to the health care and insurance industries since 1991.

Many notable hospitals and independent clinical laboratories have placed their trust in us and we value our partnership in their success.

Each day over 150,000 patients across the country are accurately and reliably managed by our patient scheduling systems.

As the health care industry continues to evolve, we look forward to the opportunity to support and serve.
