

# Sample Showcase Screens

## Object Entry Screens

Retrieve objects by either number or name - scroll back & forth through objects

Entry of information in most fields is optional - to meet your needs

Photo display provides quick identification of each object

Track donor information

Unlimited notes allow recording of maintenance information, detailed description, or any other information

Print display cards to save work when creating exhibits

Display up to 6 photos of every object

Zoom to enlarge and print any photo right from Showcase

Closeup photos of fragile objects (such as letters & postcards) eliminates the damage caused by handling

## Patron / Member Entry Screen

The screenshot shows the 'Patron Information' entry screen. At the top, there are fields for 'Last Name' and 'First' with a 'START' button and navigation buttons (Find, Next, Edit, New, Save, Delete, Exit). Below this, the main form contains fields for 'Name, Last' (Jones), 'First' (Martin), 'Patron #' (123457), 'Company', 'Address' (43 W Chestnut Ave, Springville, NY 14141), 'Telephone' (7165552222), 'Email' (jones@xxx.com), 'Interests', 'Expertise', and 'Category'. A 'Set Inactive' checkbox is also present. At the bottom, it shows 'Last Update' (03/28/2007 16:13:09) by 'ADMIN'.

Retrieve patrons by either number or name - scroll back & forth through patrons

Entry of information in most fields is optional - to meet your needs

Identify patrons with specific interests or expertise - target marketing efforts

## Typical Report Screens

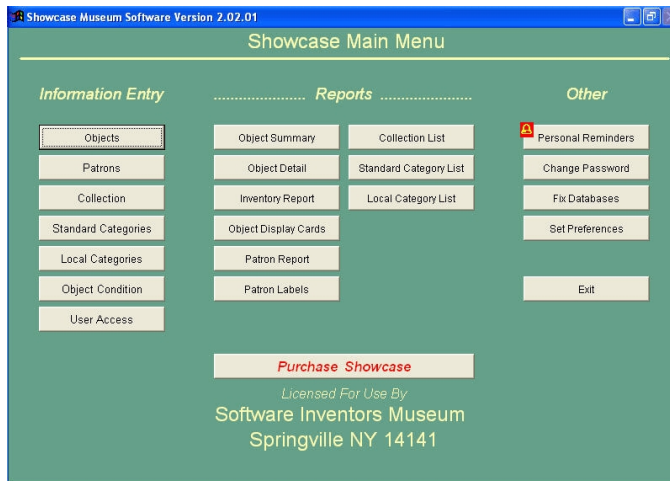

Various sort & selection options allow reports to be tailored to your needs

Preview reports on screen or print to printer

The screenshot shows the 'Object Summary Report' screen. It features a sidebar with 'Information Entry' options (Objects, Patrons, Collection, Standard Categories, Local Categories, User Access) and an 'Other' section with buttons for Personal Reminders, Change Password, Fix Databases, Set Preferences, and Exit. The main area has 'Sort by' (Object Name, Object Number) and 'Include' (All Collections, Selected Collections) options. A search box for 'Existing Museum Collection' is present. Below, there's a section 'Limit to Objects With All of the Following:' with 'Donors' (Any Donor, Selected Donors) and a list of donors (Jones, Martin; Smith, Harriet). Further down, there are checkboxes for 'Number/Name/Description Contains', 'Location Contains', 'Any Category Contains', 'Notes Contains', and 'Only Objects with a Title, Author, or Publisher'. A 'Title/Author/Publisher Contains' field is also available. At the bottom are 'Preview', 'Print', and 'Exit' buttons.

The screenshot shows the 'Showcase Main Menu' with 'Information Entry' and 'Reports' tabs. The 'Reports' tab is active, showing the 'Object Display Cards' screen. It has 'Include' options (All Objects, Selected Objects) and a list of objects (1990.006 Ice Shaver, 2001.550 Carriage Heater). A 'Card Style' dropdown and 'Number of cards on 1st sheet in printer' (0) are also visible. At the bottom are 'Preview', 'Print', and 'Exit' buttons. The footer of the application reads 'Software Inventors Museum, Springville NY 14141'.

## Main Menu

Easy to read & intuitive groups of options - perfect for volunteers and part-time staff

Access to options can be controlled by user passwords
